March 17, 2015

The Honorable James Inhofe Chairman Committee on Environment and Public Works United States Senate Washington, DC 20510

The Honorable Thomas Udall United States Senate Washington, DC 20510 The Honorable David Vitter United States Senate Washington, DC 20510

Dear Chairman Inhofe, Senator Udall, and Senator Vitter:

We are writing as members of the American Alliance for Innovation (AAI) to thank you for your leadership and offer our support for the Frank R. Lautenberg Chemical Safety for the 21st Century Act (S. 697). The AAI is an alliance of trade associations representing businesses both large and small from across the economy. AAI represents many major sectors of our economy, all along the chemicals value chain, including aerospace, agriculture, apparel, automotive, building and construction materials, chemical and raw material production, consumer and industrial goods, distribution, electronics, energy, equipment manufacturers, food and grocery, footwear, healthcare products and medical technology, information technology, mining and metals, paper products, plastics, retail, storage, and travel goods.

The way chemicals are produced and regulated has an impact on each of our industries, the products that we make and/or the services we provide. A strong, credible federal chemical regulatory program is important to our members, their customers, the millions of workers we represent, the national marketplace and all American consumers.

The Frank R. Lautenberg Chemical Safety for the 21st Century Act (S. 697) is a pragmatic compromise that balances the interests of multiple stakeholders while making significant improvements to chemicals management and facilitating a more cohesive federal approach to chemical regulation. We appreciate the thoughtful, bipartisan approach you have taken in crafting the legislation and look forward to working with you and your fellow co-sponsors as the bill is considered by the Committee and the full Senate.

Sincerely,
